Total Hours: 40

Recommended Credits: 2

Primary Discipline: Arabic Language

Language of Instruction: Arabic

Prerequisites/Requirements: None

Description

This course is offered to students who have not previously studied Modern Standard Arabic or Jordanian dialect. Jordanian dialect course hours are front-loaded to build a foundation of communicative competency upon students' arrival in Amman. After the first week, course hours taper to an average of 5 hours per week.

Driven by the concept of communicative proficiency and the goal of functional competency, CET Jordan treats Arabic language as one system of communication, guiding students to employ the appropriate register to perform a variety of real-life communicative functions. CET's Modern Standard Arabic (MSA) and Jordanian dialect courses focus on their respective registers, however; overlap is encouraged in a way that mirrors the diglossic nature of the Arabic-speaking world.

The course employs a student-centered approach and focuses on communicative competence through the completion of concrete tasks, both in and outside the classroom, including interaction with native Arabic speakers. In order to prepare students for daily interactions with local people and engagement with contemporary Arab culture, class sessions incorporate elements of written and aural media produced for native speakers. Special attention is given to cultural and social themes which demonstrate the diversity of local perspectives and highlight the power dynamics that help shape them.

Students practice interactive functional skills such as listening comprehension and conversation strategies, (linguistic and cultural) working to communicate effectively on an increasing range of subjects. Students are expected to have basic daily conversations in the internship workplace or as they interact with local people in pursuit of their research project. Students in the internship/research tracks have the same required tasks as the students in the equivalent intensive language track, but in fewer course hours.

Course Requirements

The pace of instruction is intensive. Students are expected to thoroughly prepare for each class and to actively participate. In-class activities and homework may include listening to audio materials, memorizing new patterns and vocabulary, completing written assignments, reviewing material learned the previous day, and activating new vocabulary. Class attendance, as outlined in the CET Attendance Policy, is critical for success in the course, as is learning how to engage and navigate Jordan's cultural environment.

All homework assignments are due at the beginning of class and late assignments are not accepted. Quizzes and pop quizzes are administered throughout the term. Each month, students prepare a project connecting to the subjects and learning objectives covered that month. During the final week, students undergo an oral interview exam covering the depth and breadth of material covered throughout the semester. Individual interviews last approximately 15 minutes. Each student is required to create and record an original skit, individually or in a group, to be submitted to the instructor during the final week of classes. Vocabulary used in the skit is prepared and distributed to the class prior to performance.

In addition to time in class, students spend 16 hours throughout the semester conversing informally in Arabic with colleagues at their internship sites. Students should expect to spend a minimum of one hour studying for every hour spent in the classroom. Field-based excursions, for which attendance is required, may include a cooking activity, café activity, and farm activity.
